Update to Open Hardware Summit 2020

@ohsummit #ohs2020virtual

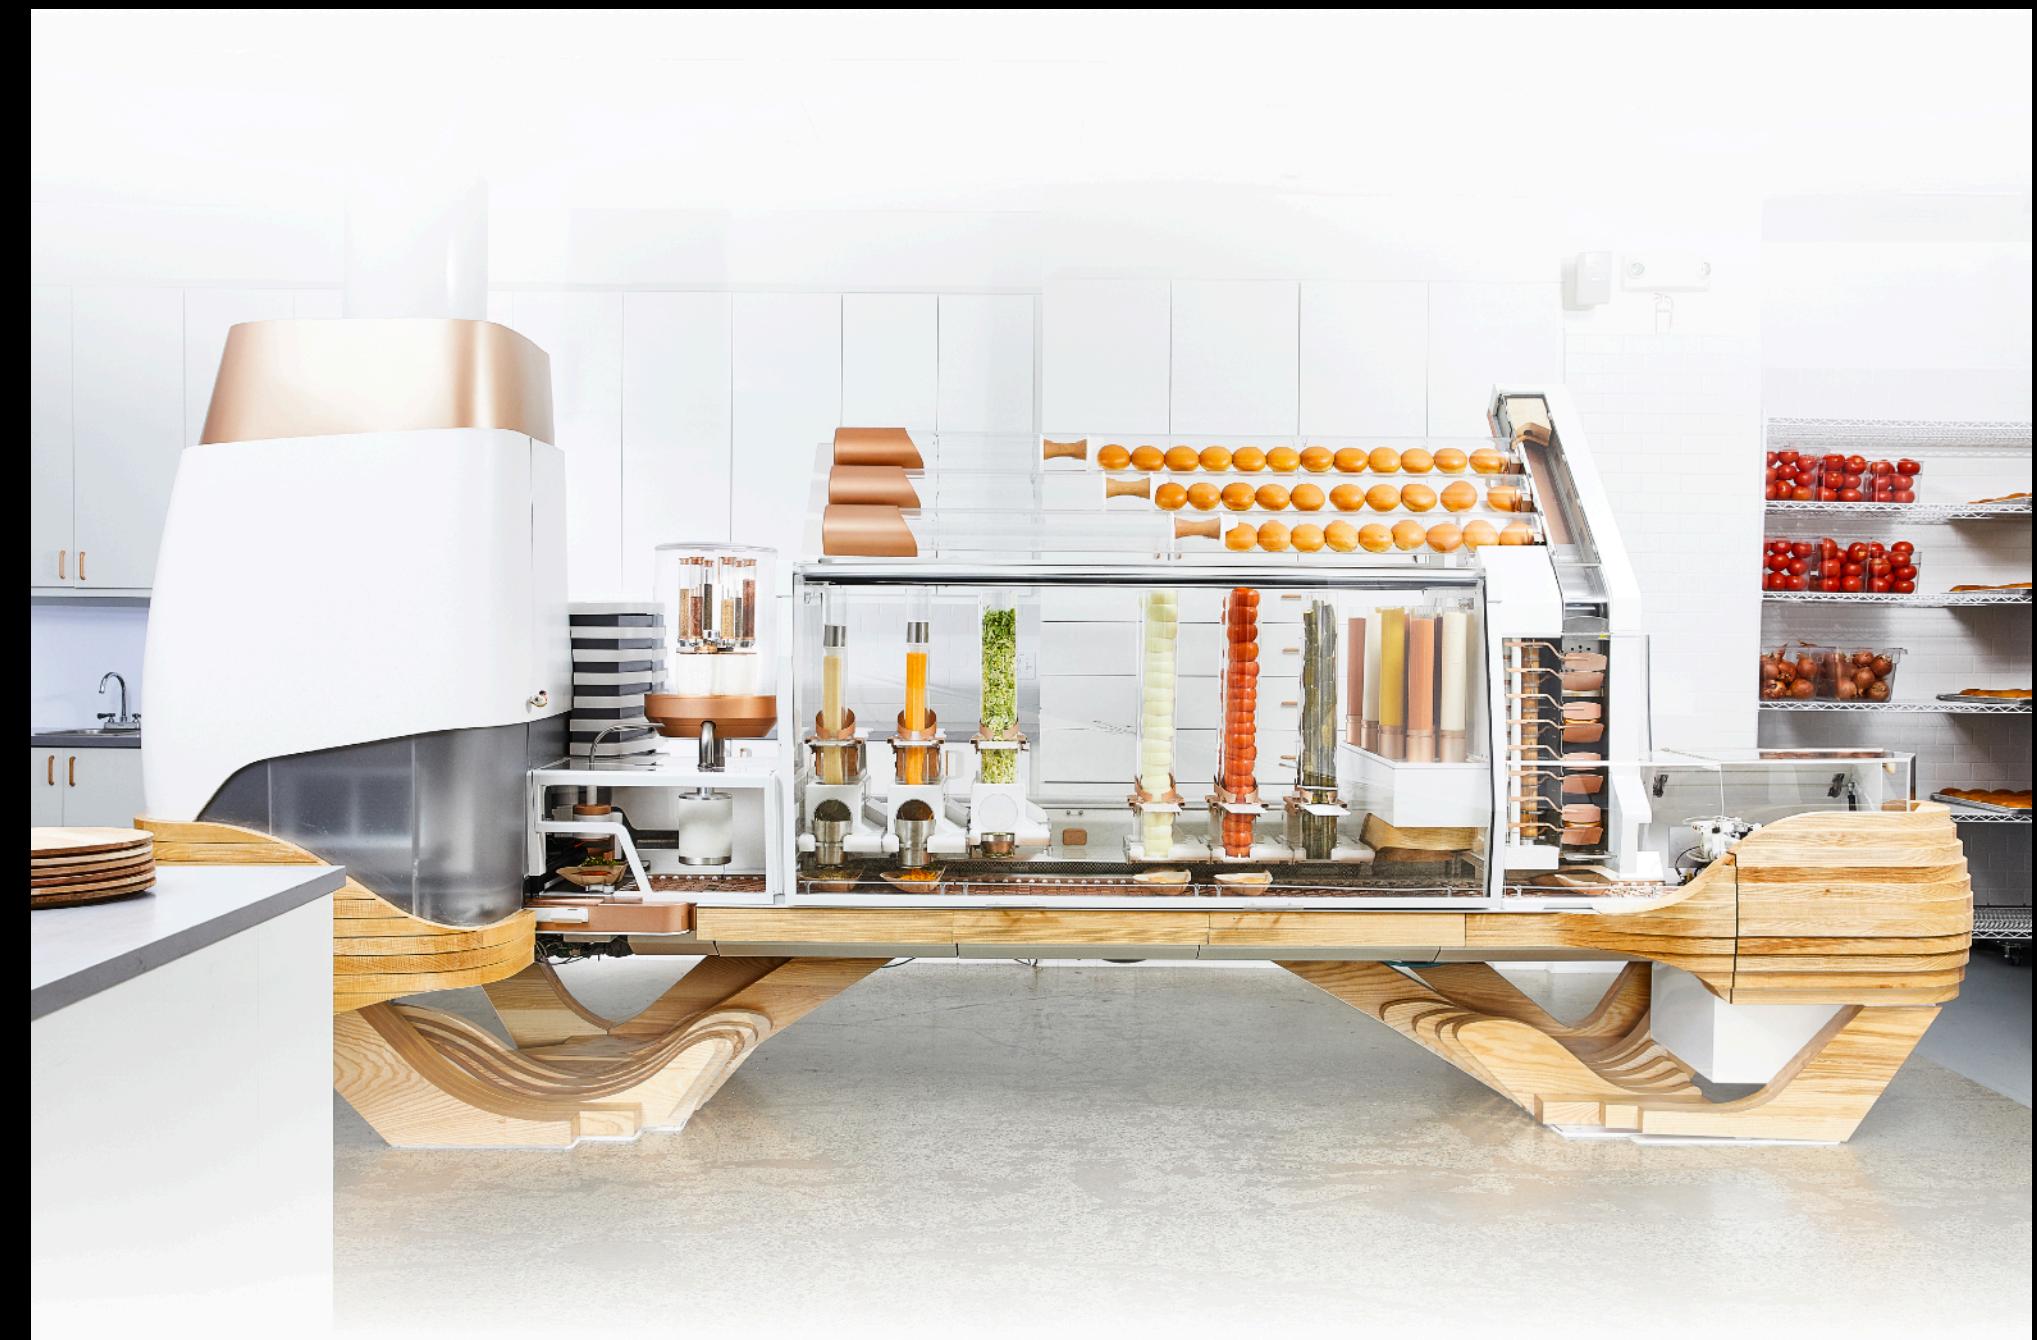

Jason Kridner @jadon

beagleboard.org

Why this update?

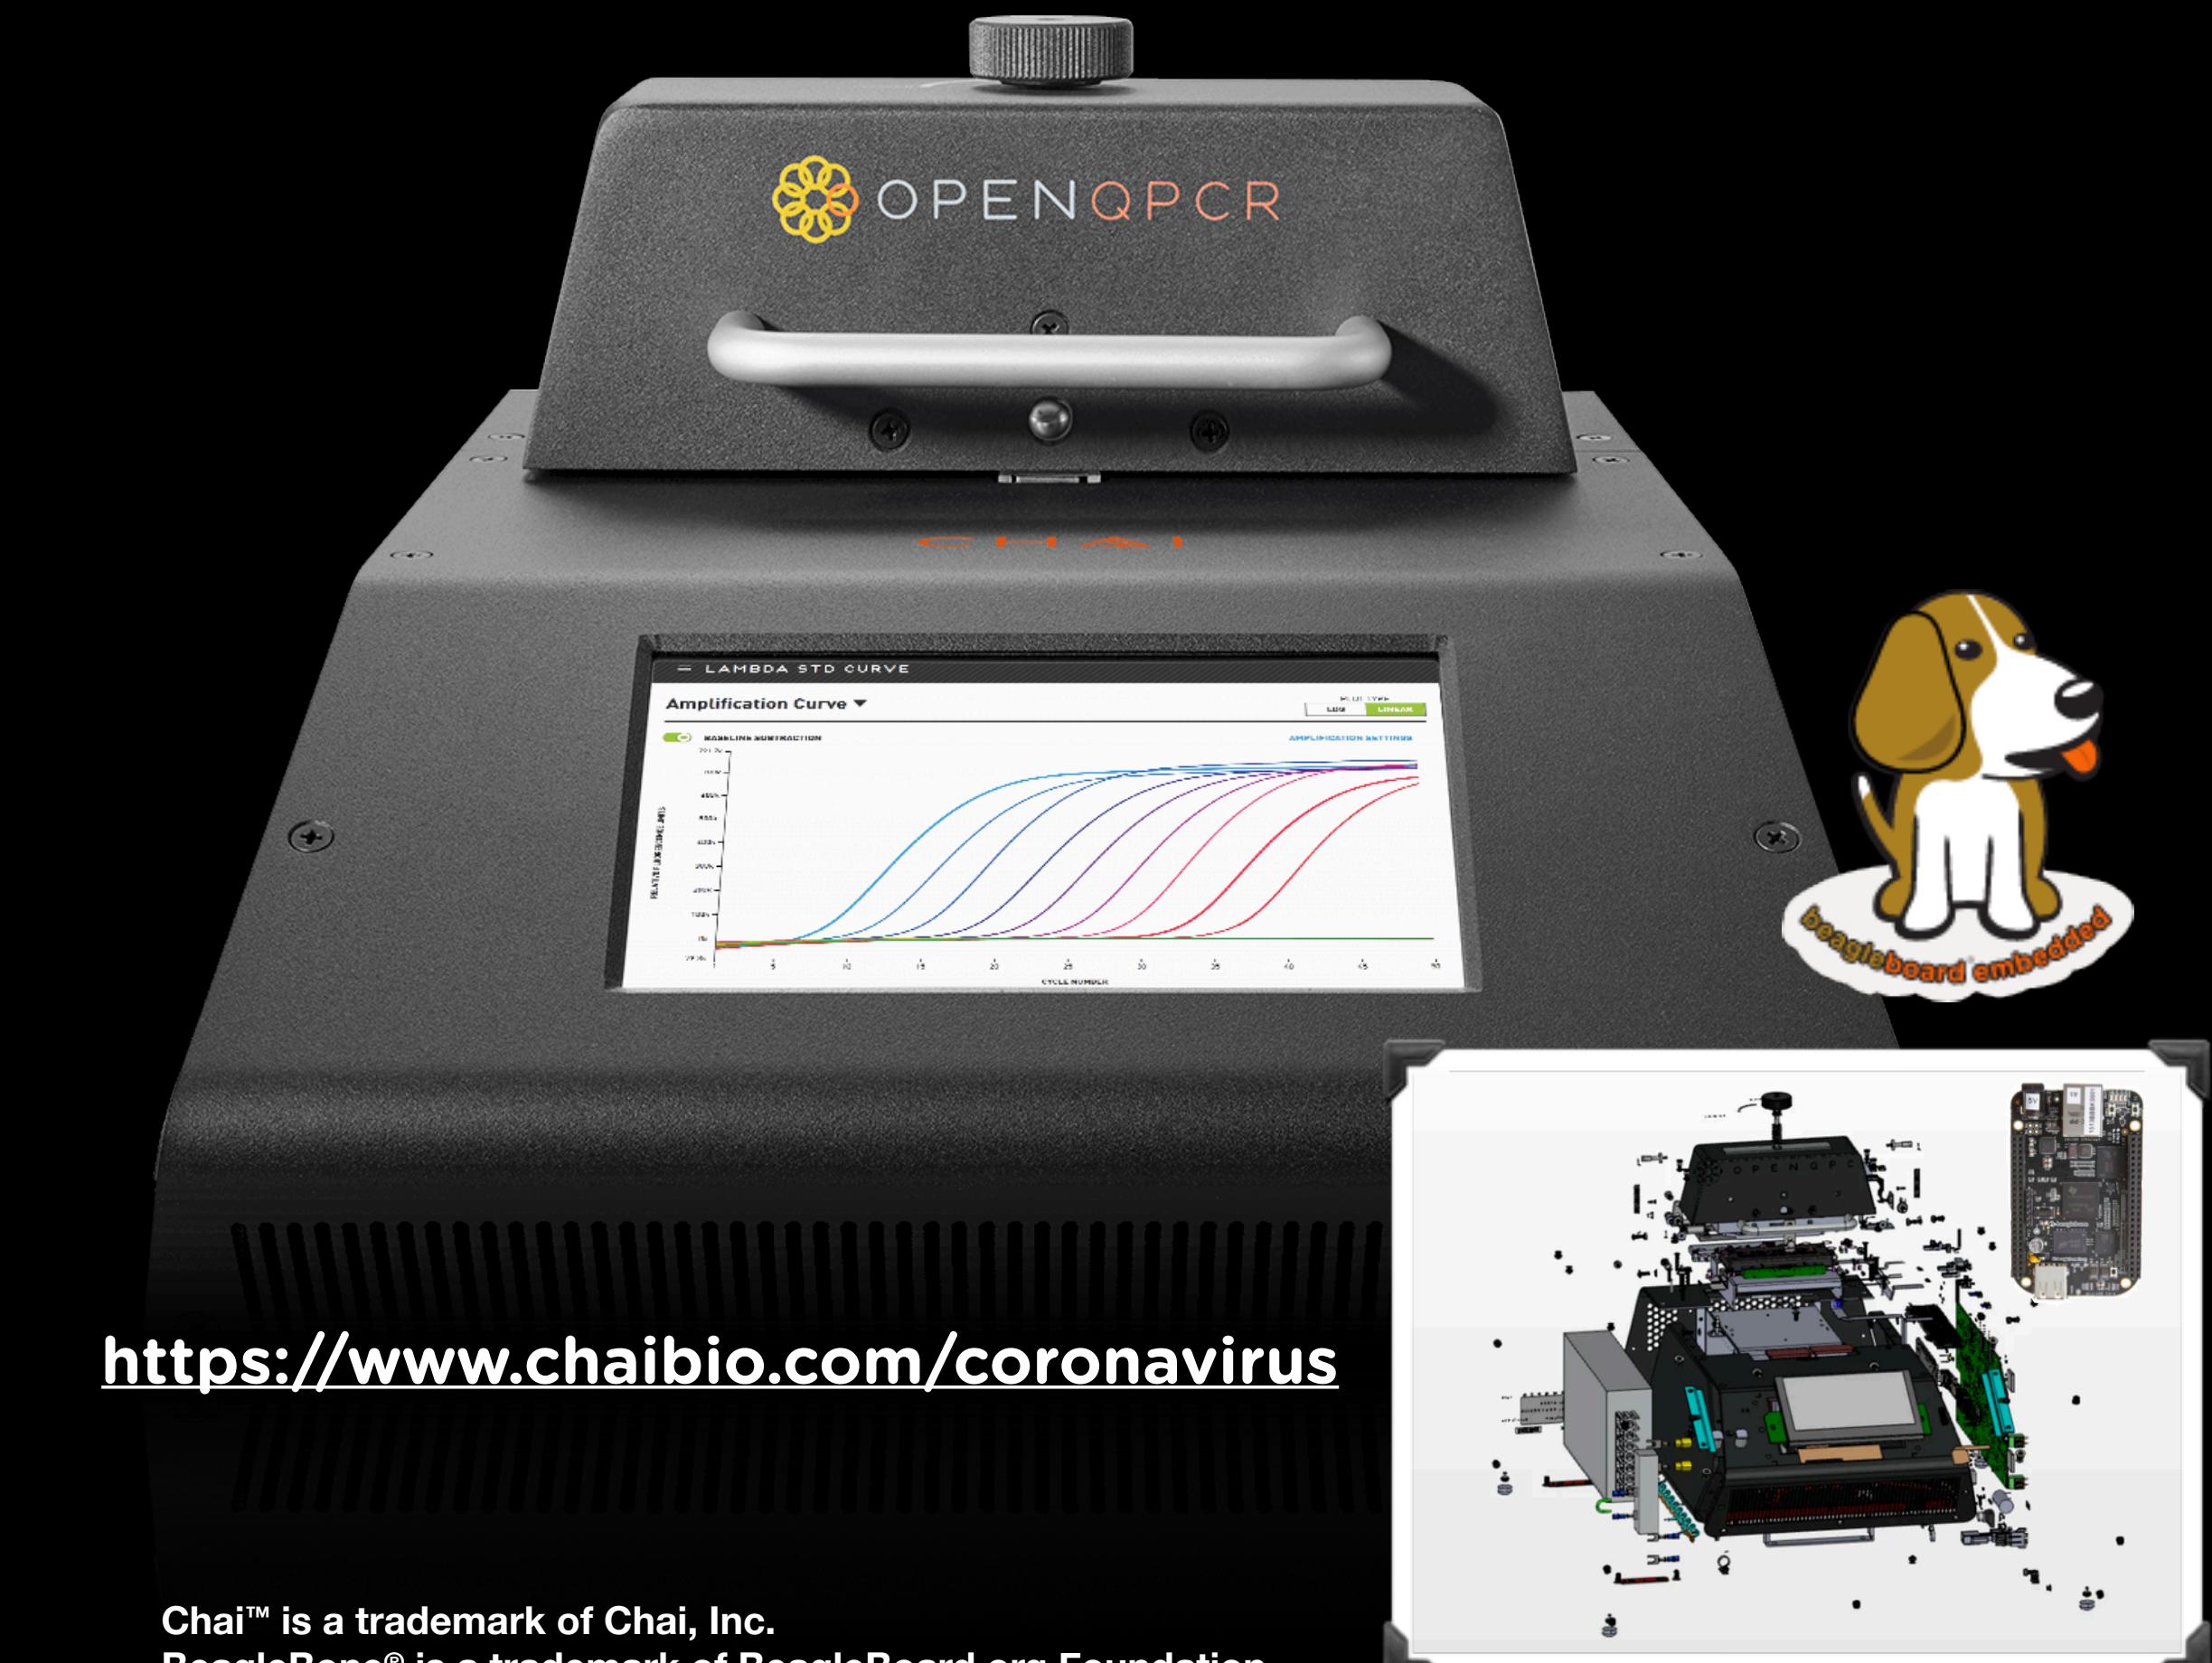

- I'd like to hear from each of you since we aren't together to chat
- If not already, join Discord at (<https://discord.gg/qJ7HcWn>)
- Share on #community-announcements or #show-n-tell
- Who wouldn't want to brag about being the computer brain behind the world's best cheeseburger?

bbb.io/creator

Open hardware solution to environmental testing for COVID-19

- Launched by Chai™ as open hardware in 2014 to improve access to biotechnology using BeagleBone®
- Suitable for community DIY use in hackerspaces, schools, and libraries
- Nearing release of a test kit for a novel approach to COVID-19 testing based on environmental sampling
- BeagleBoard.org Foundation to donate some boards to expand community access

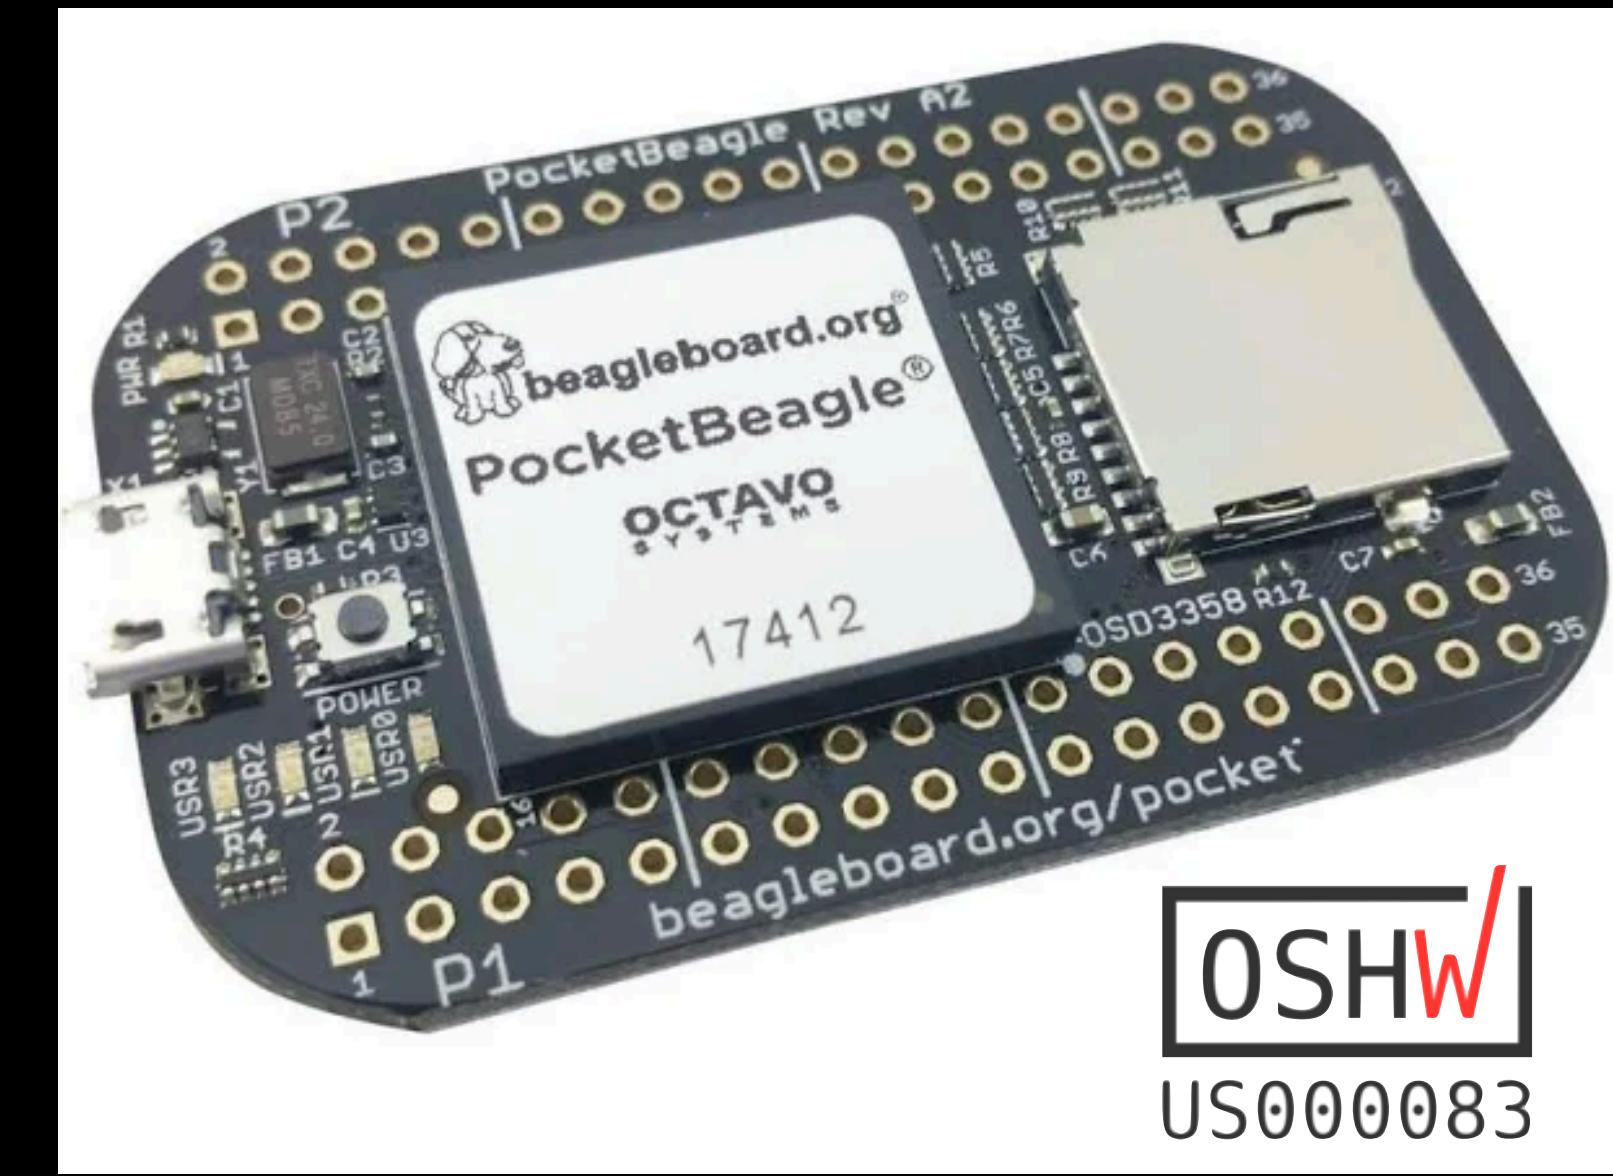

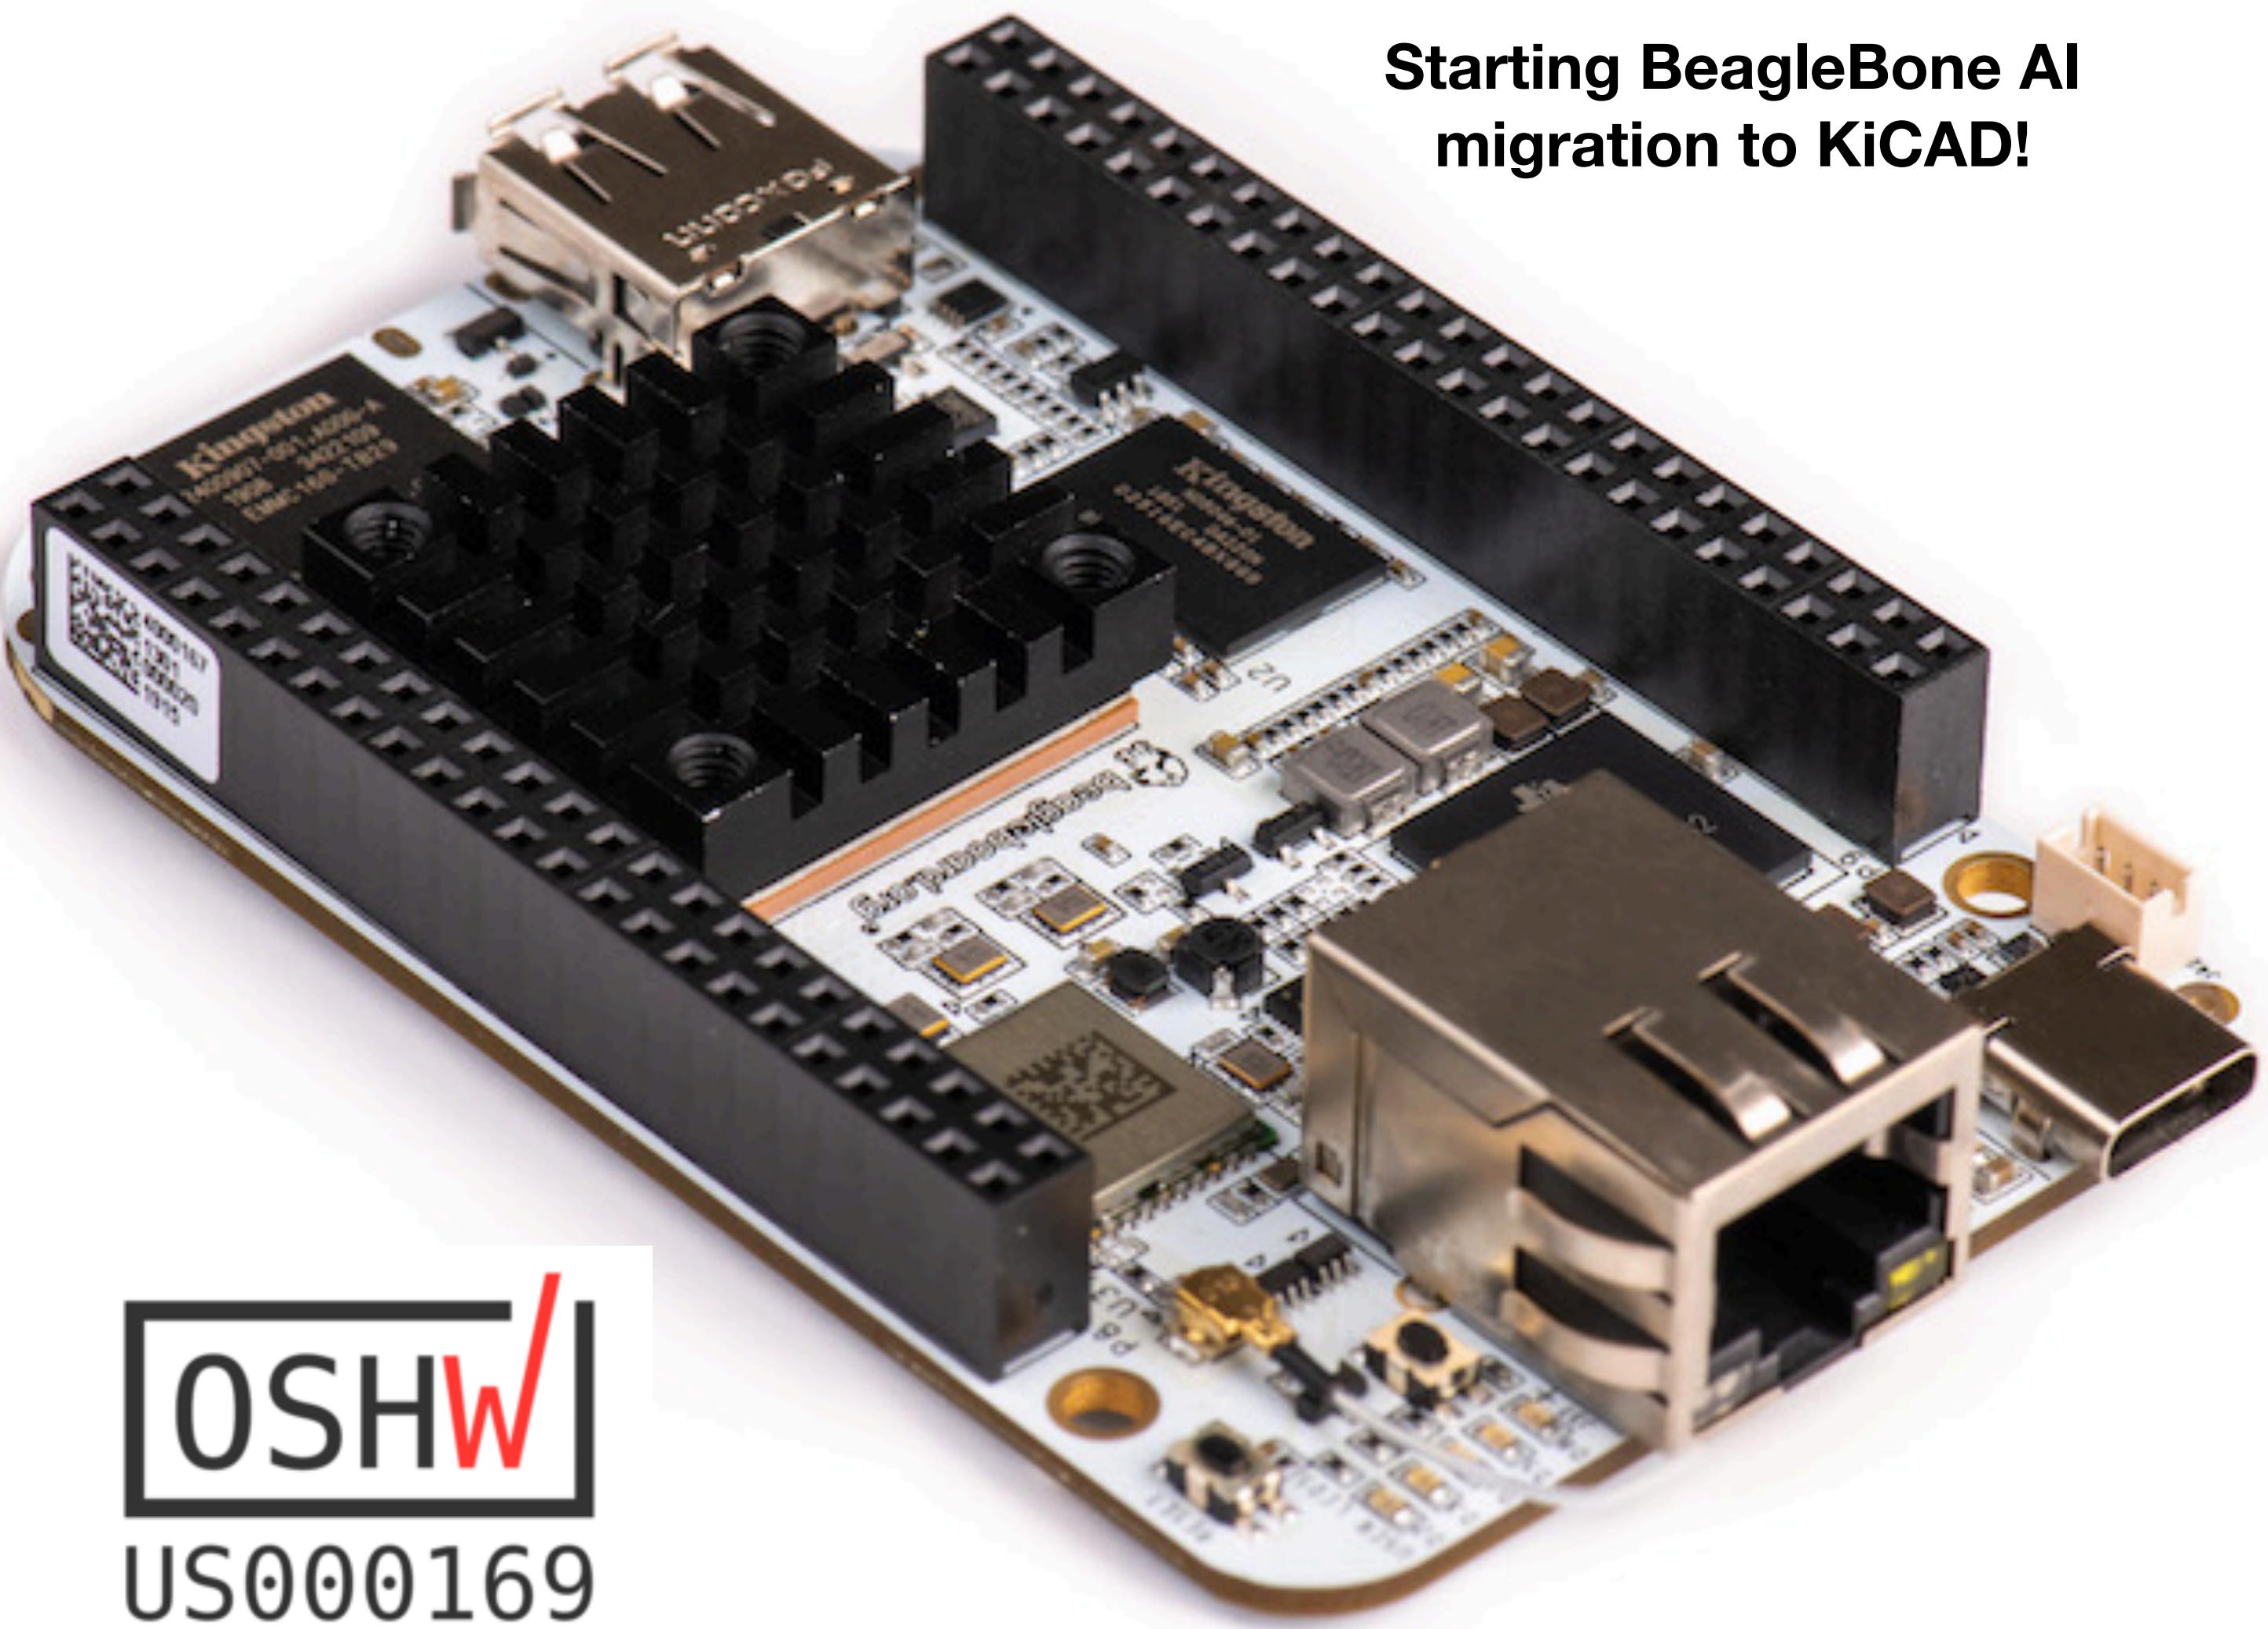

<https://www.chaibio.com/coronavirus>

Chai™ is a trademark of Chai, Inc.
BeagleBone® is a trademark of BeagleBoard.org Foundation
